I. Cloze Test: 20%

The Taipei City Department of Health's latest Brief Psychiatric Rating Scale (BPRS) survey for ___ (1) ___ has discovered that if parents have a "neglectful-indifferent" parenting style, the probability that their children are participating in gang activities, taking drugs, and spending time on the Internet (Internet addiction) is 10 times ___ (2) ___ than for children that are raised in other ways.

Lin Yi-chun, a psychologist from Taiwan Adventist Hospital, said that out of the four parenting style ___ (3) ___ — liberal-authoritative, autocratic-authoritarian, permissive-lenient and neglectful-indifferent — the probability of having the aforementioned problems with gangs, drugs, and Internet addiction is actually at its lowest when a child says its parents ___ (4) ___ the liberal-authoritative parenting style.

A health department official says that ___ (5) ___ the percentage of adolescents with psychological distress is slightly lower than it was in 2004 and 2007, we should still not make light of the situation. The BPRS survey was ___ (6) ___ last year among 57,475 students in 248 schools around Taipei City, including upper-level elementary students as well as senior and vocational high schoolers, according to the official.

Among the students tested, 18.7 percent of senior and ___ (7) ___ high schoolers had ___ (8) ___ psychological distress, while 4.5 percent had serious distress. The same numbers for junior high school students were 14.2 percent and 4.2 percent; and for upper-level elementary school students, 9 percent and 3.3 percent ___ (9) ___.

Lin said that more than 60 percent of children felt that their parents understood them if the parents spend less than an hour with them on average every day.

However, if the time parents and children spend together ___ (10) ___ to between one and three, or even up to five hours per day, as much as 80 to 90 percent of children thought their parents understood them, and they also had better physiopsychological adaptability ratings.

1. (a) adults (b) adolescents (c) people (d) starters
